## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/4/2007 has been entered.

### ***Response to Arguments***

Applicant's arguments, filed 09/04/2007, have been fully considered and are persuasive. The previous rejection has been withdrawn.

### ***Allowable Subject Matter***

Claims 12-13 are allowed. The following is an examiner's statement of reasons for allowance: Yoshihara JP No. 62-12606 teaches electronic car unit however does not teach the detailed structure and operation of the delay circuit, wherein a second resistor, a capacitor, and a second diode, with the capacitor being arranged to be

directly charged via the second diode and the first resistor with the ignition switch turned on from the battery and to be discharged via the first and second resistors with the ignition switch turned off to change the output signal of the control circuit from high to low after the delay time. At least this further limitation is not taught or rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
